

Renovation Application Information

All renovations exceeding \$5,000.00 require building permits (or less if includes structural changes). The applicant must submit:

- ✓ Completed building permit application
- ✓ Method of payment
- ✓ Two complete sets of drawings
 - Minor renovations require a floor plan showing the layout of new walls, bathrooms, bedrooms, windows and doors
- ✓ All new residential construction (including renovations where 75% of the home above grade is re-built) will need to meet the requirements of the New Home Buyer Protection Act For more information visit www.municipalaffairs.alberta.ca/NHBP or contact Alberta Municipal Affairs at 1-866-421-6929
- ✓ All new residential construction (including renovations where 75% of the home above grade is re-built) will need to meet the requirements of the New Builder Licence. For more information visit <http://www.municipalaffairs.alberta.ca/builder-licensing> or contact Municipal Affairs at 1-866-421-6929

Residential Renovation Permit Fees

In addition to the above permits, the applicant will also require electrical, gas & plumbing permits. These permits need to be submitted to IJD Inspections Ltd. They can be reached at 1-877-617-8776 or via website at www.ijd.ca

Building Permit Requirements

The following must be submitted with a Building Permit Application

- A Copy of the Development Permit
- Two sets of plans that include the following:
 - A site plan that shows the size, shape and position of the proposed building on the lot of property. The distance from the building to the property lines, roads or streets and other buildings on the property must be shown on the site plan.
 - A floor plan for each floor level that shows the size and use of all rooms and floor areas plus the floor joists, beams and column sizes and location.
 - Elevation drawings of each face of the building. Each elevation must show the size and position of each opening (windows and doors) and the finished ground level.
 - Cross section that describes, with dimensions, every part of the building that appears in the cross section. The foundation must be included in the cross section.
 - Electrical information that shows the position of every light switch and electrical receptacle.
 - Mechanical information that describes the heating and ventilating systems in the building.

Professional involvement for construction methods that *differ* from what is prescribed in Part 9 (Housing and Small Buildings) of the Alberta Building Code must be designed by a professional engineer licensed to practice in Alberta. Some examples that require professional involvement are:

- Shallow foundations (foundations less than 1.2m below grade or less than frost penetration requires the seal and signature of an engineer on the plans).
- Pile and grade beam foundations (seal and signature of an engineer on the plans).
- Pile foundations (seal and signature of an engineer on the plans).
- Preserved wood foundations (seal and signature of an engineer or architect on the plans).
- Hydronic radiant floor heating systems (seal and signature of the engineer on the pre-engineered or custom engineered package).
- Timber framing, post and beam and archtruss construction (seal and signature of an engineer or architect on the plans).
