Why might a pool be closed? Unfortunately unexpected pool closures do occur. There are a variety of reasons including; pool fouling, unbalanced chemical levels, and mechanical or maintenance issues. Most problems can be rectified quickly, but some issues may need up to 24 hours to allow for the necessary disinfection or troubleshooting to resolve the issue. In some instances, pools may have to be closed for longer durations to ensure your health and safety. Planned pool closures will be posted on our Facebook page; <https://www.facebook.com/manlukcentre>.
